

## **Cambria Scarecrow Festival Celebrates 15 Years**

For fifteen years, the Cambria Scarecrow Festival has brought whimsical scarecrows to the town of Cambria and the neighboring community of San Simeon. During the month of October, these inventive, comical, and sometimes quirky scarecrows can be found along the streets, in front of businesses, and in open fields. This year, the Cambria Scarecrow Festival committee has offered more scarecrow making workshops than ever before to showcase more unique scarecrow displays with fun themes. Some of these include a large display inspired by the Netflix series Wednesday, a display of Out of This World characters who have come to play in Cambria, and a nod to the movie Encanto being displayed in San Simeon. The new “Woodland Animals Sculpture” Workshop taught scarecrow makers how to sculpt animals for the Wildlife of Cambria display. Other workshops included our “Make It in A Day” Workshop, where the public tried their hands at making scarecrows. At our Children’s Workshop, the children made crows that will fly over Cambria.

Make note that a special display is being planned to celebrate the festival’s 15 years of scarecrow whimsy. As you can see, we are very busy working on the 2023 Cambria Scarecrow Festival, turning out to be another fabulous year! Scarecrows are on display from October 1st through 31st.
